

RALEIGH GROESBECK

Seasoned construction estimator/programmer well-adapted to teleworking who can build
you an app

RESUME SUMMARY

Seasoned construction professional with 5+ years of experience in the construction and technology industries. Well-adapted to teleworking with a unique skillset tuned for achieving the most ambitious business objectives. Successfully developed and deployed web app with an abundance of business resources such as data tables for customers/vendors/subcontractors, proposal and costing database history, Excel/PDF exports with a secure login for team members.

CORE COMPETENCIES

Analytical | Self-Motivated | Strategic | Detail-Oriented | Organized
Communicative | Critical Thinker | Engineering Acumen | Technologist

PROFESSIONAL EXPERIENCE

August 2020–Present | Tremco *Cleveland, OH (remote)*
Estimator

- Produce and peer-review customer proposals and evaluate bidding strategies through federal IDIQ contracts (RS Means).
- Lead bi-weekly virtual department meetings, update all proposal spreadsheet templates, build custom reports, and identify process workflow improvements
- Developed company web app with tailored login, bidding proposal dashboard, cost history database, and various exports (Laravel/Vue/InertiaJS)

August 2020–Present | Nucamp, Inc. *Bellevue, WA (remote)*
Web Development Instructor

- Coach students through pre-developed curriculum for Web Development Fundamentals, Bootstrap, and JS algorithms and data structures courses through virtual adult learning.

January 2020 – August 2020 | AECOM *Kansas City, MO*
Cost Estimator

- Prepare estimates and takeoffs for various nationwide construction projects (Bluebeam, Google Earth, Excel VBA)
- Developing project directory web app with features such as historical project cost data, basic CRUD, and a clean UI to view metrics and charts (PHP, jQuery/AJAX, MySQL)

January 2019–January 2020 | Facility Systems, Inc. *Overland Park, KS*
Project Manager / Estimator

- Perform takeoffs, prepare bid packages, market to GC's, solicit bid invites, and pursue bid feedback / performance for commercial projects (Bluebeam)
- Automated several project tasks (web-scraped vendor websites, custom macros for more streamlined business flow, and bidding historical database) (Excel/Access VBA)
